

Atlantic Dairy Pails Win Preference

When a man's income depends on his equipment he wants good equipment. Thus, when dairymen learned that the most profitable way to produce more milk was not by having more cows but by having better cows, they turned to higher grade stock.

It was not long ago that in many sections of the country almost any kind of a pail that looked clean was considered suitable in which to milk. Such is not the case today. The aim of up-to-date milk producers is to keep the milk just as it comes from the cow, as nearly as possible; they do not place too much dependence on filtering or pasteurizing.

Atlantic Dairy Pails are the result of twenty-seven years of steady improvements. They are strong, sanitary, smoothly finished. Of heavy sheet metal with extra deep foot, they resist abuse and endure long. Every Atlantic Dairy Pail is wrapped separately, packed in substantial crates or cartons and guaranteed to reach you in perfect condition.

Such superior Dairy Pails are worth a little more than the average. That's why they are preferred by many users. They yield you more profit.

*Why Dairy Pails
Should be Good*

Hardly any piece of equipment around a dairy is so subject to hard usage as the Dairy Pail. It is likely to be bumped and dented almost daily, unless it has unusual strength. For this reason Dairy Pails made by Atlantic are advisable for every dairy customer of yours. The Atlantic label is assurance of long life, durability, sanitary construction.

Metal Milking Stools are fast becoming the "Standard" throughout the country, principally because it is easy to keep them sanitary. By occasionally dipping them in boiling water or any disinfectant solution they are easily kept clean. Recommended by Dairy Inspectors. Your dairy utensil stock is not complete without some of these.

Milk Strainers Earn Steady Profits

Never, since the first cow was milked by a human hand, has there been such widespread and sincere interest in straining and filtering milk on the farm where it is produced.

Like the automobile, the airplane and the radio, this movement is so beautifully adapted to the public's desires that it cannot help but expand rapidly.

The merchant who makes a determined effort now to make his store known as headquarters for milk strainers and milk filtering materials will put himself in a position to enjoy big profits, steady profits. As fast as the movement grows in his community his profits will grow. And without much effort, for customers automatically keep coming back for more.

In certain sections of the country there is still an honest difference of opinion as to the superiority of cotton or flannel as a filtering medium. Hence Atlantic offers both. If you are located in such sections you should offer both. If you are not now stocking Atlantic Milk Strainers and Filtering Materials, you will find it to your advantage to write us for detailed information.

Band for Cheese Cloth

SEAMLESS MILK STRAINERS

Fits 6⅛" or 7¼" Neck Cans

80-Mesh brass strainer cloth soldered to bottom.

No. 302— 3-qt. 4X \$ 7.20 net per doz.
No. 306— 6-qt. 4X 8.40 net per doz.
No. 410—10-qt. 4X 12.00 net per doz.

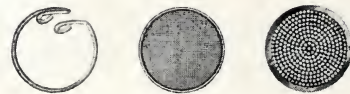

EXTRA HEAVY RETINNED SEAMLESS MILK STRAINERS

(Removable Bottom Pattern)

Fits 6⅛" or 7¼" Neck Cans

Designed for 6" or 6½" filter flannel circles or cotton discs.

Fitted with No. 1311 Tinned Steel Disc flat $\frac{3}{16}$ " perforations. No. 1011 80-mesh brass strainer cloth disc and No. 1015 Lock Spring.

No. 1010—12-qt. 4X \$16.20 net per doz.
No. 1016—16-qt. 4X 18.00 net per doz.
No. 1020—20-qt. 6X 21.60 net per doz.

Fitted with No. 1311 Tinned Steel Disc flat $\frac{3}{16}$ " perforations. No. 1516 Tinned Steel Baffle Plate "patent applied for" and No. 1015 Spring Lock.

No. 1510—12-qt. 4X \$16.20 net per doz.
No. 1516—16-qt. 4X 18.00 net per doz.
No. 1520—20-qt. 6X 21.60 net per doz.

Fitted with No. 1311 Tinned Steel Disc flat $\frac{3}{16}$ " perforations, No. 1312 Tinned Steel Disc convexed $\frac{3}{16}$ " perforations and No. 1015 Spring Lock.

No. 1310—12-qt. 4X \$16.20 net per doz.
No. 1316—16-qt. 4X 18.00 net per doz.
No. 1320—20-qt. 6X 21.60 net per doz.

(Perforated Bottom Pattern)

Fits 6 1/8" or 7 1/4" Neck Cans

Designed for 6" or 6 1/2" filter flannel circles or cotton discs.

Fitted with No. 1312 Tinned Steel Disc convexed 3/16" perforations and No. 1015 Lock Spring.

No. 3010—12 qt. 4X	\$16.20 net per doz.
No. 3016—16 qt. 4X	18.00 net per doz.
No. 3020—20 qt. 6X	21.60 net per doz.

Fitted with No. 1561 Tinned Steel Baffle Plate, "patent applied for" and No. 1015 Lock Spring.

No. 3110—12 qt. 4X	\$16.20 net per doz.
No. 3116—16 qt. 4X	18.00 net per doz.
No. 3120—20 qt. 6X	21.60 net per doz.

Fitted with No. 2561 Tinned Steel Plug Cup Baffle Plate pattern bottom "patent applied for."

No. 3210—12 qt. 4X	\$18.00 net per doz.
No. 3216—16 qt. 4X	19.80 net per doz.
No. 3220—20 qt. 6X	23.40 net per doz.

Atlantic goods are made to satisfy your customers.

(Perforated Bottom Pattern)

Fits 7 1/4" Neck Cans Only

Designed for 7" or 7 1/2" filter flannel circles or cotton discs.

Fitted with No. 1711 Tinned Steel Disc flat 3/16" perforations, No. 1712 Tinned Steel Disc convexed 3/16" perforations and No. 1017 Spring Lock.

No. 5010—12 qt. 4X	\$18.00 net per doz.
No. 5016—16 qt. 4X	19.80 net per doz.
No. 5020—20 qt. 6X	23.40 net per doz.

Fitted with No. 1711 Tinned Steel Disc flat 3/16" perforations, No. 1571 Tinned Steel Baffle Plate "patent applied for" and No. 1017 Spring Lock.

No. 5410—12 qt. 4X	\$18.00 net per doz.
No. 5416—16 qt. 4X	19.80 net per doz.
No. 5420—20 qt. 6X	23.40 net per doz.

(Clamp Cup Pattern)

Fits 6 1/8" or 7 1/4" Neck Cans

Designed for 6" or 6 1/2" filter flannel circles or cotton discs.

No. 4010—12 qt. 4X	\$21.00 net per doz.
No. 4016—16 qt. 4X	22.80 net per doz.

Showing Cup Clamped on

(Perforated Bottom Pattern)

Fits 7 1/4" Neck Cans Only

Designed for 7" or 7 1/2" filter flannel circles or cotton discs.

Fitted with No. 1571 Tinned Steel Baffle Plate "patent applied for" and No. 1017 Spring Lock.

No. 5110—12 qt. 4X	\$18.00 net per doz.
No. 5116—16 qt. 4X	19.80 net per doz.
No. 5120—20 qt. 6X	23.40 net per doz.

Fitted with No. 2571 Tinned Steel Plug Cup Baffle Plate pattern bottom "patent applied for."

No. 5210—12 qt. 4X, complete with cup	\$19.80
No. 5216—16 qt. 4X, complete with cup	21.60
No. 5220—20 qt. 4X, complete with cup	23.40

(Perforated Bottom Pattern)

Fits 7 1/4" Neck Cans

Designed for 7", 7 1/2" or 8" filter flannel or thread faced cotton squares.

MILK COOLER AND AERATOR

Simple, Durable and Easy to Clean

Thoroughly well built by competent workmen. Bottom is heavy galvanized iron, balance of cooler heavy tin plate. With proper care will last for years.

Capacity of Milk Receiver	Takes Care of	Price Each
No. 118—25 qts.	10 to 15 cows	\$6.25
No. 234—32-qts.	25 to 40 cows	7.50
No. 452—50 qts.	50 to 100 cows	8.40

GENUINE TUBULAR PRINCIPLE COPPER MILK COOLER

One of the Most Scientifically Built Farm Coolers on the Market

The Tubular Principle Copper Milk Cooler possesses the same principles of positive circulation found in the largest milk plant tubular coolers.

It is built of two heavy sheets of pure copper ingeniously crimped together; and solidly and smoothly soldered at each contact point. The construction is such that every drop of water entering the lower end of circulating passage must pass entirely through the cooler. Thus, a positive and even cooling from inlet to outlet is the result.

Each cooler furnished with large milk reservoir of heavy tin plate with special sanitary outlet; two brackets; also two troughs, hose for water connection, and necessary screws for hanging.

ATLANTIC milk shipping cans are built for long and hard usage. The best of materials plus extra heavy tinning give them a rugged strength that will last for years. At the same time, without sacrificing strength or durability, sanitary features have been embodied in them which will immediately appeal to those who are striving to raise the standard of dairy products.

*The Law Recognizes
Quality as Paramount*

Did you ever hear of a law that barred a merchant from making his price as low as he wanted to? You never will.

But quality—that's different! The law steps in there, and with a stern hand. The United States Government has a Pure Food and Drugs Act. The several States have their own regulations. Yes, even cities of any importance maintain ordinances governing quality, as every dairyman knows.

That's true of other goods, too. Sell a man a car that you know is defective and if he's injured through the defect he can hail you into court. Represent a blanket as all wool, and if analysis shows it to contain cotton you'd better hire a lawyer.

Why do law-makers, from Congress down, insist on honest quality?

Simply because laws are intended to assure human welfare and ages of experience have proved that welfare results from quality.

If you deal with the ignorant masses you can do a Woolworth business on price. But among the intelligent group that buys dairy metal ware, lasting success is built on honest quality honestly priced. That policy lifted Atlantic to its acknowledged leadership.

Atlantic New Popular Priced Baking Utensils

That quality can provide superb value is shown by this line of Atlantic Baking Utensils. Our factory, trained to high-grade production exclusively, originally put a fine standard even into such simple items as pie plates.

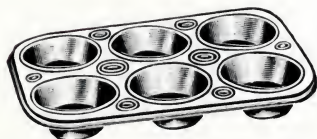

Some people sneered. "Quality in a pie plate? Absurd!"

But women recognized the value. They bought. Merchants found their volume growing; they made more money. Our volume grew, too; so we could give even better quality for the price. The goods are shown here. They'll increase profits in your store.

Packed 1 dozen in carton.

TWO EXCELLENT WINDOWS THAT USE THE NEW DISPLAY CARD

THE OLD BLACK HEN

Since it was composed several years ago the following business poem has been reprinted in probably more than 200 newspapers, magazines and house organs, becoming more or less mutilated in the process. To give ATLANTIC customers an accurate version, we have secured an authentic copy from the author, Mr. Ed. Wolff, of Rochester. We honestly feel that it can profitably be studied by manufacturers and merchants as well as by salesmen.

Said the little young red rooster,
"Gosh all hemlock! Things are tough!
Seems that worms are getting scarcer
And I cannot find enough.
What's become of all those fat ones
Is a mystery to me;
There were thousands through that rainy spell
—But now where can they be?"

The old black hen who heard him
Didn't grumble or complain,
She had gone through lots of dry spells,
She had lived through floods of rain.
So she flew up on the grindstone,
And she gave her claws a whet,
As she said, "I've never seen the time
There weren't worms to get."

She picked a new and undug spot;
The earth was hard and firm,
The little rooster jeered, "New ground!
That's no place for a worm."
The old black hen just spread her feet,
She dug both fast and free.
"I must go to the worms," she said;
"The worms won't come to me."

The rooster vainly spent his day,
Through habit, by the ways
Where fat round worms had passed in squads,
Back in the rainy days.
When nightfall found him supperless,
He growled in accents rough,
"I'm hungry as a fowl can be,
Conditions sure are tough!"

He turned then to the old black hen
And said, "It's worse for you,
For you're not only hungry,
But you must be tired, too.
I rested while I watched for worms,
So I feel fairly perk;
But how are you? Without worms too?
And after all that work!"

The old black hen hopped to her perch
And drooped her eyes to sleep.
She murmured in a drowsy tone,
"Young man, hear this and weep:
I'm full of worms and happy,
For I've dined both long and well.
The worms are there as always,
But I had to dig like hell."

Oh, here and there Red Roosters
Still are holding sales positions;
They cannot do much business now,
Because of poor conditions;
But soon as things get right again
They'll sell a hundred firms.
Meanwhile the Old Black Hens are out
And gobbling up the worms.

AS A selling force, a display of dairy metal-ware is always profitable. When all the separate items are tied together in the buyer's mind the selling power is even greater.

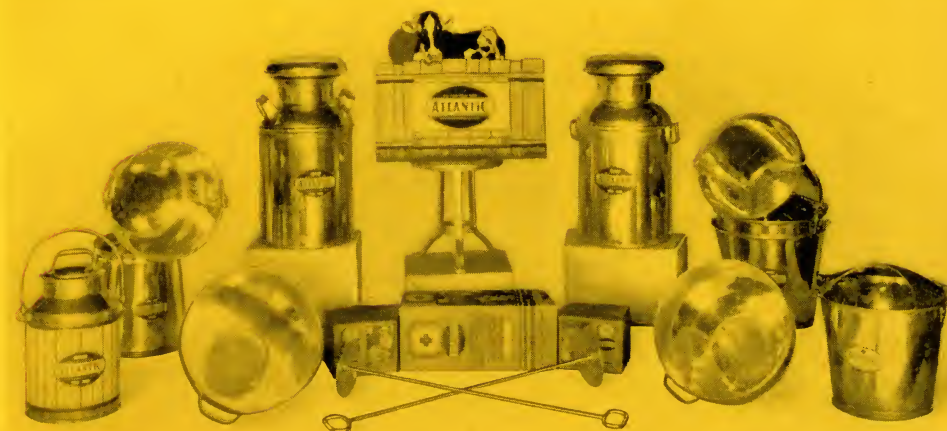

Note the new ATLANTIC card in these two displays. To judge the power that it adds just cover it with your thumb—at once the entire display loses force.

That's just why this expensive card was designed—to give more selling force to your displays of ATLANTIC dairy metal-ware—to sell more goods for you—to add to your profits.

So use this card. Use it long and often—in your windows, inside your store. It will catch the interest of any dairy man. It will sell goods for you as long as you use it.

THERE are just two ways of making Milk Ship-
ping Cans. Both aim at economy. One way is to
make a can that will last, the other is to work to a price.
The quality way costs less.

That is because of the human labor involved. You
pay just as much for having work done wrong as for
having it done right.

Yes, it takes a little longer to put in the added
touches, to make the tin coating heavy instead of light,
to make joints tight instead of leaky—a little longer,
but not much. It also costs a little more for material.

Why, then, do we put this extra cost into Atlantic
Milk Shipping Cans? Doesn't raising the cost reduce
the profit? No, quite the contrary—increasing the
quality increases sales; and which is better—to sell
fewer cans at a somewhat larger profit or to sell vastly
more cans at a somewhat smaller profit?

So we hold to the ideal that guides us in the manu-
facture of all other Atlantic Long-Wear Metal-Ware—
giving the user a quality article that fully meets the re-
quirements. We try to put ourselves in the other man's
place. We build the kind of article that we ourselves
would buy and use.

During the past year we have made numerous im-
provements in our Milk Shipping Cans—always with a
view of giving more value. Without sacrificing strength
or durability, we embodied sanitary features that will
immediately appeal to those who are striving to raise
the standard of dairy products.

Prompt and satisfactory service is in our minds,
second only in importance to the quality of Atlantic
goods. The high value built into Atlantic is increasing
our volume. It will increase yours.

OF DAIRY METAL-WARE MADE

WHY HAVE COTTON DISCS, ANYWAY?

THERE'S only one reason, of course—to assure clean milk. But if that is the only job a cotton disc is expected to do, shouldn't it do that job superlatively well?

It's the answer to that question that makes the difference between cotton discs.

Years ago, after careful research and experiment, the answer was found—cotton discs, processed in a certain way. Our first year's business on these was very small; 1930 set a new high record.

That was due, no doubt, largely to the help given us by experienced dairymen, both technical and practical. Another large factor was the loyal experimental support extended by the mill that supplied us with the material. Together these factors have helped us perfect a Cotton Disc that has never been surpassed.

Atlantic Strain-Right "High Speed" Cotton Discs filter milk as rapidly as our experience shows is proper. To satisfy yourself on this, divide a batch of milk in half and put it through two cotton discs—an Atlantic and any other. Compare the time. Then compare the cleanliness.

The cleanliness of the milk, we mean. We admit right now that the Atlantic Cotton Disc will be the most soiled. That is because it does better filtering. We urge comparative tests with cotton discs of any manufacturer, for speed plus efficiency.

Cleanliness of Atlantic Cotton Discs begins at the plant. Above you see part of the packaging room—all white, with white-clad attendants. The door is heavy, self-closing, dust-tight.

Here all wanted sizes and finishes are packaged in the Atlantic manner that dairymen everywhere approve with enthusiasm.

You can increase your income from cotton discs very simply. When a customer comes in for cotton discs, just ask, "Do you want the cotton disc that does the cleanest job?"

Nine chances out of ten he'll say, "Yes." Then give him Atlantic. If he says he was thinking of a faster cotton disc tell him, "This is the fastest cotton disc made, for clean filtering."

We believe you'll find this makes the sale, in most cases. Certainly it will when you have a dairyman who is proud of his milk—and most of them are.

Here's why Jim Bates Sells Atlantic

You'd like Jim Bates—one of the squarest shooters in the hardware world to-day.

A woman came into Jim's store to look at a furnace, and on the way out she bought a twenty-five cent galvanized pail for her garage.

Ten days later she brought it back, badly dented. Jim satisfied her, then asked, "How about that furnace, Mrs. Finch?"

"Oh," she replied, "we've bought it."

"Bought one!" exclaimed Jim. "Why, the furnace I offered you is the best on the market at the price."

"Is it?" said Mrs. Finch. "Well, my husband was afraid to buy it here after the way your pail disappointed him. Thanks just the same."

Atlantic Galvanized Iron Ware is constructed to hold the confidence of customers. The required strength has been built into each article to make it last long and give satisfactory service.

Copper-bearing steel sheets are used exclusively, heavy ears, heavy wire. Each article is "hot dipped" separately after being assembled, to make it water-tight, weather-proof. Attractively striped and labelled, these goods sell fast, give you a nice profit and increase the reputation of your store.

GALVANIZED PAILS
(Green Band)

Coppered Wire Bail—Wood Grip

These general utility pails have been giving satisfaction to our customers for years. They are a strong, well-made article—hot galvanized after being made up—moderately priced. They earn a nice profit for the retailer.

No. 7010—10-qt. 1X	\$4.00 net per doz.
No. 7012—12-qt. 1X	4.25 net per doz.
No. 7014—14-qt. 1X	4.50 net per doz.
No. 7016—16-qt. 1X	4.75 net per doz.

High grade heavy red band pails, built to withstand hard usage. These pails will last for years. They are the kind your customers will appreciate.

No. 6212—12-qt. 4X	\$ 6.90 net per doz.
No. 6214—14-qt. 4X	7.50 net per doz.
No. 6216—16-qt. 4X	8.10 net per doz.
No. 6220—20-qt. 6X	10.80 net per doz.

SPECIAL GALVANIZED PAILS
Iron Bails—Blue Band

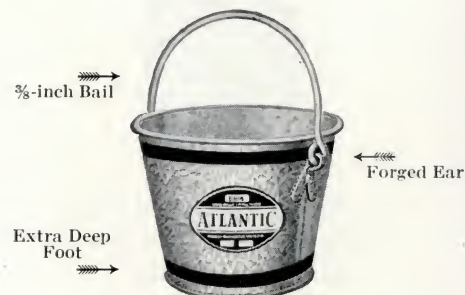

Same pail as No. 7010 Series above, but with Iron Bail instead of wood grip.

No. 6008—8-qt. 1X	\$3.75 net per doz.
No. 6010—10-qt. 1X	4.00 net per doz.
No. 6012—12-qt. 1X	4.25 net per doz.

ASH CANS (SPIRAL CORRUGATIONS) Series A

Series "A" Cans are the strongest ash cans in the world. They are made of very heavy metal, strongly reinforced and spot welded (proved strongest) instead of riveted. Galvanized after being made up—water tight and weather tight.

	Dia.	Hgt.	Weight Without Cover	Price Each No Cover	Price Each With Cover
No. A1	16"	26"	24 lbs.	\$2.55	\$2.85
No. A2	18"	26"	27 lbs.	2.95	3.35
No. A3	20½"	26"	31 lbs.	3.45	3.95

Capacity, 21 gals., 28 gals., 33 gals.

ASH CANS (VERTICAL CORRUGATIONS) Series B

Series "B" Cans are made from the same material exactly as corresponding sizes in the "A" Series. The only difference is that they have vertical corrugations instead of the spiral.

	Dia.	Hgt.	Weight Without Cover	Price Each No Cover	Price Each With Cover
No. B0	16"	23"	21 lbs.	\$2.45	\$2.75
No. B1	16"	26"	24 lbs.	2.55	2.85
No. B2	18"	26"	27 lbs.	2.95	3.35
No. B3	20½"	26"	31 lbs.	3.45	3.95

Capacity, 21 gals., 28 gals., 33 gals.

One Sale or Many?

How does it help your business when a customer goes into his basement and sees the ash-can you sold him buckled on one side, dented on the other and maybe a handle missing? Does he say to himself, "That's a darn fine ash can—I'm going back there and buy more like it?"

No, he can get that kind anywhere. But sell him Atlantic with its heavy sides, bottom and heavy re-inforcing band, its stout handles, its stiff construction, its after-assembly galvanizing, and you've made a come-back customer.

POPULAR PRICE QUALITY ASH CANS (VERTICAL CORRUGATIONS) Series C

Packed ½ doz. in crate.

If there's a satisfactory substitute for quality, why has nobody ever found it?

THE buyer of a gasoline or kerosene can confronts the price once—while he's making the purchase. He has the quality before his eyes as long as he owns the can.

When he comes to buy he may say, "Oh, a cheaper quality is good enough." Sure—he's willing to save a quarter.

But the very fact that he values every penny gets him disgruntled when the cheap can goes bad. He forgets the quarter he saved; he remembers the dollar he lost. Sell him Atlantic, keep his business, make more money.

GALVANIZED KEROSENE CANS (Blue Band)

Brass Lever Faucet on Side

Standard 5-gallon can equipped with the best brass lever faucet we can buy. Sure to give satisfaction.

No. 8875—5-gal. 4X \$18.00 net per doz.

Turning Fashion into Dollars with Color

Green sinks — stoves enameled in ivory — why, kitchens have more color today than we used to see in parlors!

Women want pots and pans in color, too, of course. How they're buying colored enamel ware! Not from you, do you say? Well, they're buying it just the same.

Two things they're cautious about—the right shade of color and the durability. That's where the Atlantic dealer has the advantage. The tints of ivory, the clear sparkling white catch the buyer's approval at once. As to durability, you simply tell her, "Madam, this is Atlantic—it's guaranteed."

Style movements wait for nobody. The time to cash in is now, while millions of new pieces are being bought to replace the old. Make a display of Atlantic Ivory Green trimmed Enamel Ware and watch it move dollars into your cash register.

After the purchase is in the home—then what? Will the buyer be pleased, and come back again to you? Yes, if you sold her Atlantic.

We believe in Atlantic goods. That's why we guarantee them.

The Guarantee's Value

Your customer is seldom a judge of gray ware, so she trusts your judgment. She pays the price you ask; then she expects satisfaction.

If disappointed, she can throw the item away in anger or come back and complain. You're better off if she complains—it gives you a chance to satisfy her.

But you can't please her by arguing, "Well, madam, at the price you paid—" She's not talking price; she's talking satisfaction. You hold her confidence and her trade if you say at the start, "All Atlantic goods are guaranteed."
